Migration in the EBRD Region: Turning a Challenge into an Opportunity
Thursday 9 May
14:30 – 16:00
Great Hall, Level 1, Parliamentary Assembly Building

Migration is a key challenge that defines the political landscape across the EBRD region. Addressing it requires the combined actions of policy makers, the private sector, international organisations and civil society.

In the Western Balkans, outward migration flows create challenges for the local economies and hinder sustainable growth.

Transition to Transition: Sharing Experiences (Open to all participants)
Tuesday 7 May
19:00 – 20:00
Sala 101, Level 1, Parliamentary Assembly Building

The EBRD regions of operations covers a diverse set of countries at different stages of development, but the obstacles and constraints are often similar. The lesson learned from reforms implemented successfully in one country may, with suitable modification, be applied with equal success elsewhere. But what is the best way to share experiences, and do peer-to-peer exchanges across countries really work? In this special event, a distinguished group of policy-makers explain how they have brought their experience of market-oriented reforms to other countries, and they discuss the challenges associated with a “transition to transition” approach to knowledge sharing.

Cultural Performance & Reception for All Participants
Wednesday 8 May
19:30 – 22:00
Zetra Hall

Starting with a performance by NBO orchestra, offered by the EBRD, the Host performance will combine traditional and modern sounds, with dances featuring some of Bosnia and Herzegovina most famous artists and performers.

Green Cities = Improved Lives
Wednesday 8 May
16:00 – 17:00
Blue Hall, Level 4, Parliamentary Assembly Building

Cities are dynamic and vital parts of society and are the main engines of social, economic and technological development. Cities have significant resource demands through the services they provide. In order to meet these needs, cities are a major driver of environmental impact. The EBRD responded to this challenge by establishing EBRD Green Cities in 2016. EBRD Green Cities uses Green City Action Plans (GCAPs) to systematically promote and finance transformational environmental and climate related municipal infrastructure.
